COLLEGE OF EDUCATION
COORDINATOR OF MOBILE
OFF-CAMPUS SITE

June 2, 2003

Dr. Sidney Brown, Director
Off-Campus Programs
Alabama State University
P. O. Box 271
Montgomery, Alabama 36101-0271

Dear Dr. Brown:

All of the classes that are scheduled for the Mobile Off-Campus Site take place in the Main Library or other facilities on the Main Campus of Bishop State Community College. The following equipment and/or facilities are available to the classes, faculty and students at the site:

1. The Library Lecture Room (with 100 seating capacity);
2. The Library Language Laboratory (with 25 seating capacity);
3. The Library Seminar Room (with 20 seating capacity and tables for seminar arrangements);
4. All equipment in the Library including projectors, television/VCR combinations;
5. 15 computers in the Library with internet connection and CD-ROM capabilities;
6. 20 stand alone computers in the Library with CD-ROM capabilities;
7. Computer Laboratory in the Minority Entrepreneurial Technology Center (MTEC) with 25 networked computers, internet capability and CD-ROM; and
8. Two Computer Laboratories in the Administration Building, each with 25 networked computers, internet capability and CD-ROM.

Please let me know if additional information is required.

Thank you very much.

Sincerely,

Charles H. Blackledge, Ph.D. Coordinator
Mobile Off-Campus Site

*Dr. Sidney Brown
Off-Campus Coordinator
Alabama State University
P. O. Box 271
Montgomery, Alabama 36101-0271*

Dear Dr. Brown:

On behalf of the Miles College faculty, I am delighted to write a letter of support for the Alabama State University off-campus Graduate Program. To have one of the Alabama State University Graduate off-campus sites on the campus of Miles College is a tremendous enhancement for our overall academic program.

The Alabama State University off-campus graduate program allows perspective graduate-level students the opportunity to be introduced to higher-level courses in a structured yet nurturing environment. Perspective graduate students can explore with doctorate-level instructors programs not presently offered at Miles College, such as library media, counseling (educational and agency), special education and educational leadership, just to name a few. In addition, higher level courses in the areas of human development, advanced psychology and written communication makes this program a great asset not only to the students at Miles College but for the Birmingham-Jefferson County area. We are pleased to be chosen as one of the program sites and offer our media center, technology centers, classroom space and other services to this enriching program of human aspiration.

We, therefore, support the Alabama State University off-campus Graduate Program in Birmingham, Alabama without reservation.

Respectfully,

*Albert J. H. Sloan, II
President*
