Instructional Technology and Media Committee

February 1, 2006

Purpose: to review the existing Technology Plan and the modifications that the Committee suggested at last review. Teams are listed with the Team Captains identified. The team section of responsibility is listed as well. This is followed by a listing of items to identify in the review process. As the document now stands the Long Term, Short Term issues are mixed with the Items/issues completed all in the Status Column. At the last meeting we had a suggestion to expand the Status Column to indicate Long Term/Short Term/Completed. I have modified these Columns in the Modified Technology Plan
